It includes one Design and Technology Seminar, an interactive Workshop and a number of specialist assignments. We also include entry to the Resort's two theme parks, Disneyland® Park and Walt Disney Studios® Park, allowing your students the opportunity to have fun and experience, at first-hand, the application of their subject in real-life environments.

Educational Content

©Disney/Pixar

The Design and Technology Study Experience immerses students in the practical applications of design and technology at this world-famous theme park resort in a number of different and engaging ways:

- Through attending a Seminar hosted by facilitators with experience of working with Disneyland® Paris and featuring back-stage video interviews and footage filmed exclusively for Study Experiences
- By taking part in our interactive Workshop which encourages the students to use their knowledge of ICT and Computing principles and practices
- Completing subject-specific Assignments during their time in the Parks and at the Resort

Seminar: Designing Disney

Design for graphic products (brochures and website), textiles (costumes) and resistant materials (attractions) will be reflected throughout the three sections of the Design and Technology Seminar.

1. Research and Design

- 1.1. Identifying the need for a new product
- 1.2. Primary, secondary, and historical research
- 1.3. Brand image
- 1.4. Creative problem solving

2. Construction and Materials

- 2.1. Resistant materials
- 2.2. Textiles technology
- 2.3. Graphic products
- 2.4. Food technology

3. Social and ethical factors

- 3.1. Aesthetics versus functionality
- 3.2. Cultural considerations
- 3.3. Public safety
- 3.4. Reducing our impact on the environment

The Seminar includes video interviews with Walt Disney Company/Disneyland Paris personnel including:

Imagineer Bjorn Heerwagen
Ben Spalding, Entertainment Producer
Isabelle Antoine, Creative Costume Designer
Oliver Beeson, Senior Manager, Merchandise
Anas Analoui, Head Sous Chef, Disney's Newport Bay Club together with subject specialists Tara Hagerty, Second in Maths and Aidan Coyne, Deputy Assistant

Workshop: Designing a new product for Disneyland® Paris

Note: This workshop is still paper based as designing a roller coaster would not work for graphic products and textiles.

The Workshop gives students the opportunity to put some of what they have experienced in the Seminar and during their time in the Resort into practice. Divided into teams of 8 and guided by our experienced facilitators, their task is to design a new product for Disneyland® Paris. It could be a packaging item, signage or brochure, graphics for a new AV show, a roller coaster, parade float, a show or parade costume, an item of food, menu or even a restaurant suggestion.

At the end of the workshop, the teams will give a 3-minute presentation of their design to the facilitators, teachers and the rest of the audience. They will need to be prepared to answer questions and receive feedback.

Educational outcomes

- Establish user needs
- Generate and develop ideas
- Use of appropriate materials
- Respect for the Disney brand
- Working as a team, communicating and meeting the deadline

Assignments

Study Experiences' Assignments are closely linked to the Seminar, Workshop and the students' experiences at Disneyland Paris. Designed to be completed whilst in the Resort, on the journey home, or back at school or college, they are directly linked to their studies and a selection are based on past exam papers, including a Disney twist. Topics include:

- The importance of good product specification
- Graphic design for magazines and brochures
- Roller coaster design and resistant materials
- Properties of resistant materials
- Selecting textiles for sales products
- Designing products for sale to the public

Study Experiences Key Benefits

Subject Specific Seminars

Groups will attend a one hour multimedia seminar, delivered to an audience of students and teachers from all over the UK.

Led by one of our team of experienced facilitators, with considerable experience of the Resort and its working methods, students will explore how Disneyland Paris uses many key examination topics to carry out its planning and day to day activities.

Our facilitators will engage your students in thinking about how their subject is seen in action in the Resort.

We strongly recommend that each student is issued with a copy of the Student Workbook that contains space for guided note taking and background information for the workshop.

Interactive Workshop

For the workshop, students will initially be divided into groups of 30-40, then split into smaller teams of 8 and encouraged to participate in a fun, interactive learning experience with our professional facilitator.

They will be treated as though they are Disney professionals and the facilitator will guide and inspire them to work as a team, meet a realistic deadline and communicate their ideas persuasively – as well as testing some core subject skills.

It is highly recommended that group leaders play an active part in the workshops by encouraging their students in their work and assisting the facilitator in providing feedback.

Educational Support

Group leaders will receive a copy of the Teacher Education Guide with practical advice for the visit, an introduction to the Study Experience learning objectives and details of the interactive workshop.

In addition, the Assignments Worksheet (some of which are directly based on past examinations, adapted to your students experiences in the resort) will help you develop your students' subject knowledge further.

There is also an education email "hotline" for group leaders to use should they have any queries on the content of the Seminars, Workshop or Assignments.

Based on teacher requests, we also provide an Activities Booklet, giving word searches, crosswords and quizzes that can be used on the journey, or in the evenings.

"It was a fantastic trip! The students loved it. It was well organised and were happy to answer any questions I had prior to the trip. We will definitely go again next year!"

Your Itinerary Choices

Study Experiences offer a choice of Three or Four Day Packages, with accommodation options to suit your requirements and budget.

Seminar & Workshop Timings

The seminar and workshop will take place during the course of your stay at the Resort. The timings of these will be available approximately four weeks prior to the event.

Three Day Tour by Coach

Day One

Your coach will collect you from your school or college early in the morning for the journey to the Channel port and your crossing to Calais. Once in France, the journey from Calais to Disneyland® Paris takes approximately five hours.

On arrival at Disneyland® Paris, you will be met by the Study Experiences resort team, who will assist you with check-in at your Disney® hotel.

The resort team will also be on hand to answer any questions you may have throughout your stay. For dinner we recommend that you pre-book a meal with us at your chosen hotel.

Day Two

After breakfast, your students will enjoy unlimited access to both Disneyland® Park and Walt Disney Studios® Park, with their One-Day Hopper Ticket. To round off your day, we recommend that you pre-book a meal voucher that can be used at lots of the over-the-counter-service outlets in the Disneyland Parks and Village.

Day Three

During the morning, you will reboard your coach and begin the journey back to Calais for your return Channel crossing, arriving at your establishment during the evening.

Four Day Tour by Coach

We offer the opportunity for you to stay an extra night at Disneyland® Paris, with a choice of further full day in the Disney® Parks or a visit to Paris.

If you choose to visit Paris, which will be on either the second or third day of your tour, your coach driver will provide a short tour of the main sights prior to dropping you off at a suitable central location. You will then have free time for sightseeing.

Many groups choose to book a Bateaux Mouches Seine River Cruise or visit the observation deck at Tour Montparnasse 56, providing fabulous views of Paris. See page 11 for more details.

The Four Day Tour is an excellent option for all groups. We particularly recommend it for groups travelling from the west and north of England, Wales, Scotland and Northern Ireland.

Eurostar Travel Option

We are able to offer both the three and four day tours with return Eurostar travel from London St Pancras, International Station to Disneyland® Paris. The Eurostar high-speed rail service brings you to the centre of Disneyland® Paris from London in just over two and a half hours.

As the Eurostar service arrives during the early afternoon and departs in the evening, we offer the option to pre-book additional days' entry to the Disney® Parks. Please note that you will need to make your own travel arrangements to St Pancras station.

Flight Travel Option

We are also able to offer both the three and four day tours with flights to Paris from your choice of Belfast, Birmingham, Bristol, Edinburgh, Glasgow, Leeds Bradford, Liverpool, London Luton, London Gatwick, Manchester and Newcastle airports.

In France, we will then provide return coach transfers between the airport and Disneyland® Paris, however please note that you will need to make your own travel arrangements to and from your chosen UK departure airport.

On confirmation of your flight times, should timings permit, we will offer the opportunity to purchase additional days' entry to the Disney® Parks.

Your Group Size

Our three and four day tours are available for groups of any size. For schools and colleges travelling by coach, if you have a group size of between 44 and 49 passengers, then we will provide you with exclusive use of your own 48 or 49-seat coach (contact us for details of what we can provide for groups of more than 49 passengers). We can tailor your itinerary to suit your plans, for example arranging specific visits in Paris or an extra day's admission to the Disney® Parks.

Groups of fewer than 40 students will be allocated a shared coach with another school or college for the journeys to and from Disneyland® Paris to ensure that you do not have any coach under-occupancy costs to pay. Some group leaders choose to combine with other departments to bring their student numbers up to 40 and therefore enjoy the added benefits and comforts of having exclusive use of their own coach.

Study Experiences also hosts education programmes for Mathematics, Science, Computer Science and Computer Studies, Media Studies, Performing Arts, Design & Technology, Health & Social Care, & STEM.
